

Sunoco Ultra® Full Synthetic Motor Oil GF-7B / SQ 0W-16

Product Overview

Specially formulated for superior fuel economy, this oil is produced using pure synthetic base oils and high-performance additive packages for superior performance benefits and fuel efficiency over other conventional and synthetic engine oils. The latest additive technology meets or exceeds the performance requirements of the GF-7B / SQ specification for the 0W-16 grade.

Features and Benefits

- Excellent oxidation stability for long lubricant life
- Low-temperature protection to prevent cold start wear
- Low volatility for reduced oil consumption
- Increased resistance to viscosity breakdown
- Better fuel economy and emissions reductions
- Protects against engine deposits and valve train wear
- Helps extend engine life compared to convention motor oils

Applications

- Meets the most demanding lubrication requirements of today's naturally aspirated, turbocharged, direct-injected, gasoline-fueled and flex-fueled engines.
- Designed to inhibit incidents of LSPI (low-speed pre-ignition), a combustion event that can cause premature wear or catastrophic failure.

Specifications

- API SQ, SP, SN, SN PLUS
- ILSAC GF-7B

Typical Properties

VISCOSITY/ PRODUCT CODE	0W-16 PRODUCT CODE: 7403
Viscosity, cSt @ 100°C	7.4
Viscosity, cSt @ 40°C	38.3
Viscosity, CCS, cP @ °C	4,500 (-40)
Viscosity Index	164
Flash Point, COC, °C, min	200
Pour Point, °C, max	-47

The Sunoco brand is built on a foundation of tradition, innovation, and uncompromising quality. Since our beginnings in Pittsburgh more than a century ago, Sunoco Engine Oils have grown into a trusted global presence thanks to our unsurpassed performance and reliability.

Over the past 130 years, we have continually advanced lubricant technology to meet the evolving demands of today's modern engines and equipment. Sunoco Lubricants offers a comprehensive portfolio of products that meet the latest approvals and recommendations from leading OEMs worldwide.
