

Sunoco Prestige Ultra EP-2 Grease

Product Overview

- NLGI Grade 2
- Approved NLGI GC-LB
- Extremely versatile, high temperature lithium complex grease
- Dyed Red – Exceptionally Adhesive

Features and Benefits

- Provides water resistance and corrosion prevention, ensuring reliable lubrication even under heavy loads
- Superior load carrying capability
- High-strength fluid film
- Superior storage life

Applications

- Heavily loaded industrial, mining, and construction applications
- Severe service requirements such as disc brakes, hinge pins, and conveyor bearings.
- Mining, construction, and applications where shock loading conditions exist

PERFORMANCE DESCRIPTION	TEST METHOD	CONDITION	TYPICAL VALUES
			EP-2 PRODUCT CODE: 74213
Temperature Range			-30°C to 204°C (-22°F to 400°F)
Appearance		Visual	Red & Highly Adhesive
Base Oil			Mineral
Base Oil Viscosity	ASTM D-445	40°C	680 cSt
Thickener			Lithium Complex
Dropping Point	ASTM D-2265	°C	> 260
NLGI Grade			2
Worked Penetration (x60)	ASTM D-217	25°C (77°F)	265-295
Copper Corrosion	ASTM D-4048	24 hrs @ 100°C (212°F)	1B
Rust Prevention	ASTM D-1743	48 hrs @ 52°C (125°F)	Pass
Wear Prevention (4-Ball Method)	ASTM D-2266	1200 rpm, 40 kg, 1 hr, 52100 steel	<0.6
Extreme Pressure Properties (4-Ball Method)	ASTM D-2596	Weld Load, min	500kgf

Values given represent typical properties only and are not intended for use in preparing specifications.

The Sunoco brand is built on a foundation of tradition, innovation, and uncompromising quality. Since our beginnings in Pittsburgh more than a century ago, Sunoco Engine Oils have grown into a trusted global presence thanks to our unsurpassed performance and reliability.

Over the past 130 years, we have continually advanced lubricant technology to meet the evolving demands of today's modern engines and equipment. Sunoco Lubricants offers a comprehensive portfolio of products that meet the latest approvals and recommendations from leading OEMs worldwide.
