ADVANCED LUBRICATION SPECIALTIES - WHO WE ARE

Advanced Lubrication Specialties (ALS) was founded in 1984 as the Junell Corporation and traces its roots back to 1895, with the acquisition of American Oil & Supply International in 2021. The Bensalem, Pennsylvania facility was built by Gary Julian in 1997, with his sons Greg and Grant Julian continuing the family legacy as President and Vice President.

ALS takes pride in its global manufacturing and marketing partnerships that are fueled by organic growth and strategic acquisitions. This approach is how we've grown into the company we are today.

ALS - TODAY

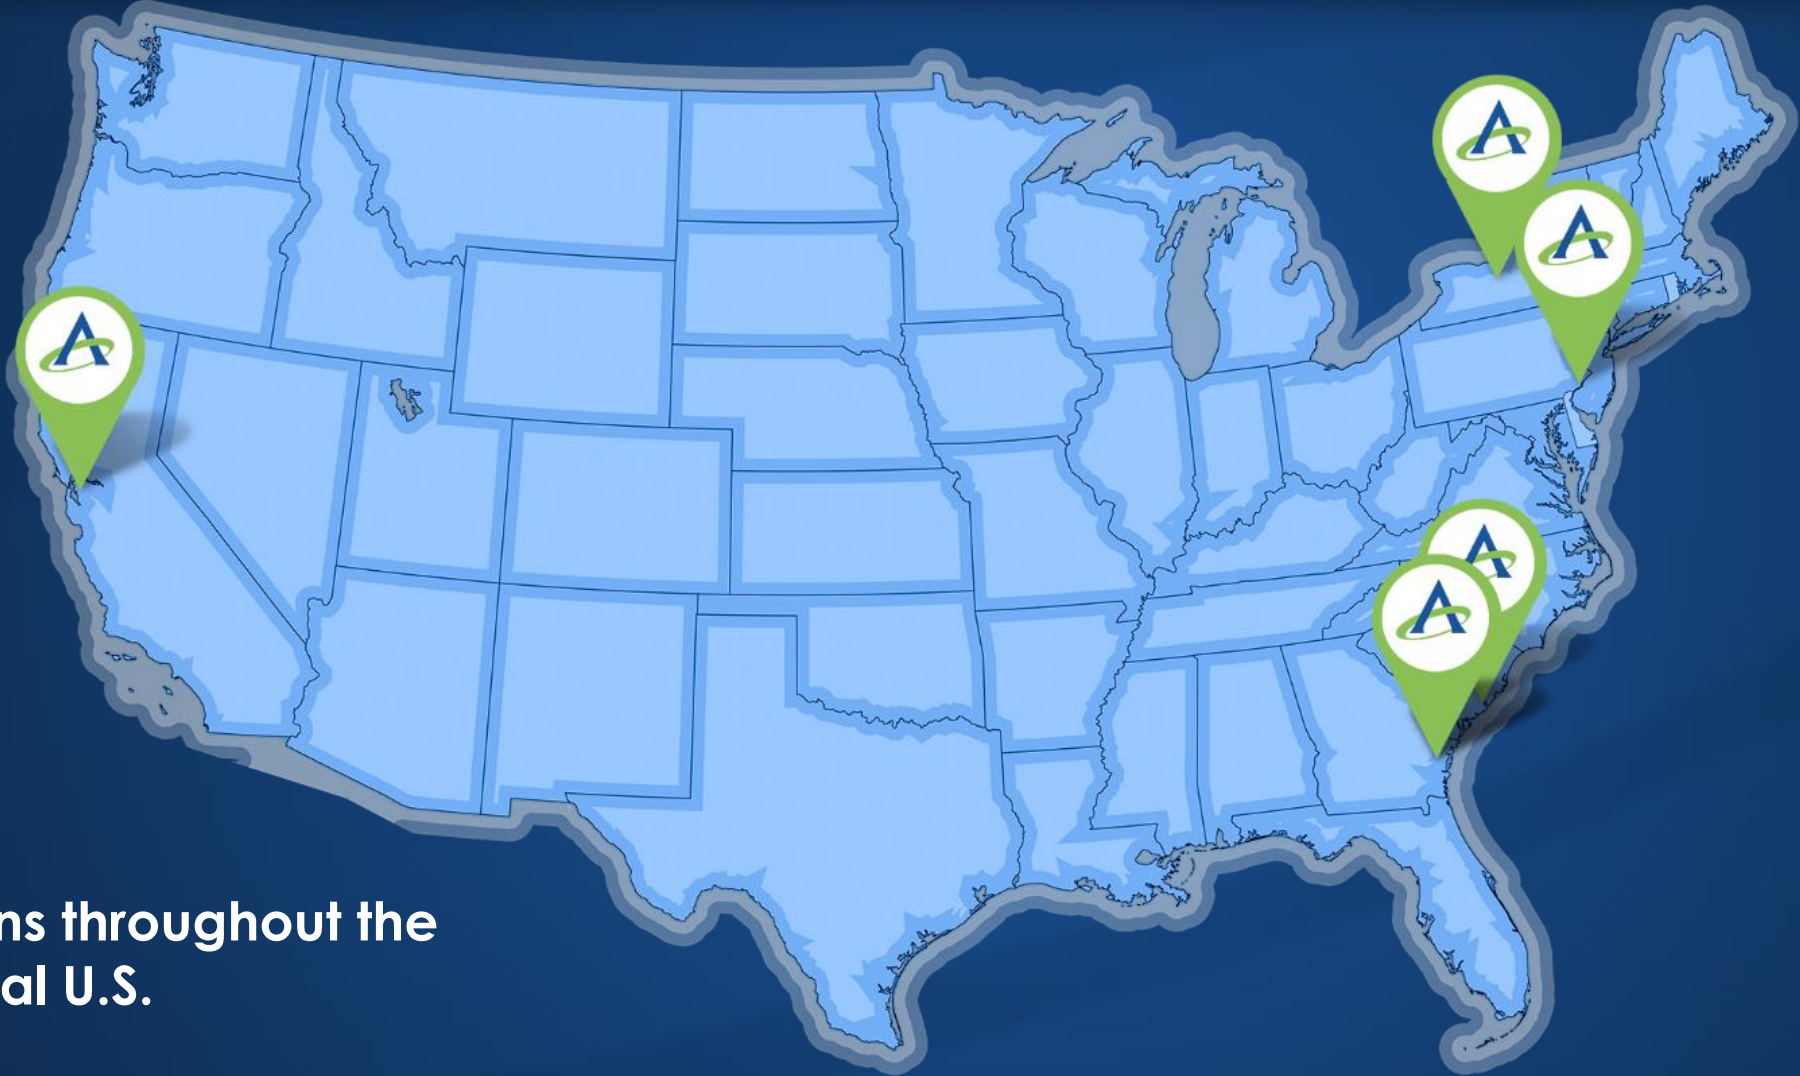

Today, ALS manufactures and markets premium lubricants and greases for global markets, including:

Leveraging multiple U.S. manufacturing facilities alongside global partnerships allows us to deliver high-quality products at competitive pricing while maintaining worldwide consistency and reliability for all international customers.

LOCATIONS AND FACILITIES

5 Locations throughout the
continental U.S.

LOCATION BREAKDOWN

BENSALEM, PA

Opened in 1997

Expanded to 128,000 sq. ft.

Serves as ALS headquarters

RICHMOND, CA

42,000 sq. ft. production & warehouse facility

42 bulk storage tanks

23 blending kettles

7 packaging lines

CHARLESTON, SC

Direct access to both rail & water

20 Tanks with 750K Gal in inventory

SAVANNAH, GA

Blending & Terminaling facility

5.8 Million Gallons of storage

Deep-water dock

Ship, barge, rail, tank truck & flexitank loading & unloading capabilities

HILTON, NY

Specialty Metalworking oil products

3 buildings located on 10 acres of land

Over 25 blending tanks from 55 Gal to 6,000 Gal

Over 25 bulk storage tanks for inventory of key raw materials

KEY EQUIPMENT AND CAPABILITIES

- Fully equipped laboratories, specializing in worldwide ASTM and in house test methods
- Stringent quality assurance program that holds ALS & our raw material supplier partners to the highest standards in the industry
- Direct access to rail lines in multiple facilities
- Storage and blending tanks for wide range of products ranging from PCMO's to specialty metalworking fluids and more
- State-of-the-art palletizing robots, filling and packaging technology
- Full array of packaging solutions including quarts, gallons, bag-in-a-box, drums, pails, totes, and various corrugated and paperboard options
- Bulk loading and unloading equipment

THE ALS FAMILY OF HIGH QUALITY LUBRICANTS

Our brands encompass a wide spectrum of lubricants, including:

Automotive • Commercial • Heavy Duty • Industrial • Metalworking • Specialty

QUALITY ASSURANCE & CERTIFICATIONS

Quality is our brand. At ALS, quality is more than a promise, it defines who we are. Every decision, formulation, and process reflects our belief that quality is our brand.

- **In-House Lab:** ALS operates a fully equipped in-house laboratory that monitors product integrity at every stage of production. Our technicians conduct extensive testing to ensure each formulation meets strict performance and safety standards.
- **Additive Suppliers:** We partner exclusively with world-class additive suppliers such as Lubrizol, Afton, Infineum, and Oronite. These relationships allow us to build formulations with proven chemistry that delivers consistent, reliable performance for every application.
- **API, ILSAC specs:** All ALS products are engineered to meet or exceed current API and ILSAC specifications. Our commitment to certification ensures customers receive lubricants that align with industry standards for protection, efficiency, and durability.
- **Batch testing:** Every batch that leaves our facility undergoes rigorous testing to verify viscosity, performance additives, cleanliness, and overall quality. This disciplined process guarantees that customers receive products that perform exactly as intended.
- **Traceability & compliance:** ALS maintains full traceability across our manufacturing process, from raw materials to final packaging. This system ensures total compliance, transparency, and accountability for every product we produce.

WHY CHOOSE ALS?

- **Quality-focused manufacturing:** ALS is built on a culture of precision and consistency, delivering lubricants manufactured to strict quality standards. Every product reflects our commitment to reliability and performance.
- **National brand + private label flexibility:** Whether customers need nationally recognized brands or tailored private label solutions, ALS provides flexible options that align with their market goals. We adapt quickly to evolving demands without compromising quality.
- **Fast lead times:** Our streamlined production and efficient logistics allow us to offer some of the fastest lead times in the industry. Customers benefit from dependable delivery schedules that keep their operations moving.
- **Competitive pricing:** ALS delivers high performance at a fair cost, offering competitively priced products without sacrificing quality. Our customers gain measurable value across every tier of their lubricant program.
- **Customization capabilities:** From specialized formulations to unique packaging needs, ALS excels at customization. We work closely with customers to create solutions that fit exact performance, branding, and operational requirements.
- **Strong technical support:** Our technical team provides expert guidance to help customers select, apply, and optimize their lubricant programs. We stand behind every product with responsive, knowledgeable support.
- **Relationship-first approach:** At ALS, we prioritize long-term partnerships built on trust, transparency, and open communication. Our customers know they can depend on us as a committed and collaborative business partner.
